

COMPANY PROFILE OF ELIMSAN

Elimsan was founded in 1980 in Adapazarı for manufacturing electrical equipments.

Year by year ELIMSAN became a specialist company in the electrical equipments production for the range between 7,2 kV – 525 kV. Elimsan has a very big capacity for the production of SF6 Gas Circuit Breakers (6000 pcs./year) , Metal Enclosed Switchgears (3000 panels / year), Metal Clad Switchgears (1500 panels / year), High voltage Disconnectors (3000 units / year).

Some of our other main products are; MV-HV Disconnectors, Current Transformers , Voltage Transformers and Instrument Transformers, Fuses; MV Circuit Breakers (Vacuum-SF6 Gas), HV Metal Oxide Surge Arresters and Lighting Fixtures. All of our products have type tests' reports from CESI (Italy), KEMA (Holland), IPH (Germany) and ICMET (Romania).

By developing its own technology through continued R&D activities, Elimsan became one of the major manufacturing companies in the world which satisfies international standards and quality requirements needed for electric transmission and distribution systems. Since last 30 years, more than 100.000 units of these equipments have been manufactured and in operation with satisfied customers.

Elimsan has a very large land more than 550.000 sqm and 40.000 sqm closed facilities. All of our equipments are manufactured with CNC controlled workbenches under the ISO 9001 Quality Management System and ISO 14001 Environmental Management System. Our products are tested in our accredited High Voltage Laboratories according to ISO 17025 standards.

Since its establishment, Elimsan products are produced with advanced technology to meet Turkey's fast development progress. Elimsan represents our country successfully, challenges in competitive global market conditions. Its products are preferred on a wide geographical area from Australia to Estonia, from Far East to South America.

In the year of 2008, Elimsan has become a one of the subsidiaries of **SAUDI CABLE GROUP** which is one of the leading cable manufacturers of medium and high voltage cable up to 400 kV in the Middle East. As a result of this consolidation, Elimsan reinforced its place in the global market.

Elimsan is a creative, innovative and dynamic company with full in-house design and test capabilities. We respect and pay much attention to communicate and interact with our clients; and meeting each customer's needs is our number one priority.
